Help for the External Annual Report Module of LoGIC

Introduction

Welcome to the Department of Resources Recycling and Recovery's (CalRecycle's) Local Government Information Center (LoGIC) Electronic Annual Report (EAR). The LoGIC EAR continues to be the fastest, easiest way to file your CalRecycle Annual Report and is designed with security, ease of use, and flexibility in mind.

Logging In

Security and passwords

As an Annual Report filer you would have been invited to obtain a CalRecycle WebPass and automatically granted access or requested access to the Annual Report for your jurisdiction. A CalRecycle WebPass allows you to use your email address and a single password to sign into many secure CalRecycle web sites and services.

CalRecycle strongly advises LoGIC users to protect their passwords. If there is more than one person in an organization that enters the Annual Report data, CalRecycle requires a unique password and login for each approved user. If the user's password is compromised or forgotten, please visit <https://secure.calrecycle.ca.gov/WebPass/> to manage your account.

Once you have your WebPass you may log into LoGIC at <https://secure.calrecycle.ca.gov/logic/>.

1. Enter your email address.
2. Select "Next".
3. Enter your password.
4. Select "Sign In".

Help for the External Annual Report Module of LoGIC

To start filing or continue filing a report, click on the year listed as the latest EAR cycle available. The status of the report is listed next to the year and lets you know if the report is due or has been submitted. You can also view a summary of a prior electronic annual report by selecting a year in the EAR Summary Reports field.

Single County / Jurisdiction Log In

If you have access to a single jurisdiction, you will be taken straight to the LoGIC “Welcome” screen (LoGIC External Home).

Multiple County / Jurisdiction Log In

After you have logged in, if you have been given security rights to multiple jurisdictions, you will be given a list of reporting entities/jurisdictions which you are authorized to access. This is the “Jurisdiction Affiliations” screen. Select one reporting entity/jurisdiction to begin working in LoGIC.

County/Jurisdiction Affiliations

Below is a list of Counties or Jurisdictions you have affiliations with as either an active participant or viewer. Please select a county or jurisdiction of interest.

| Jurisdictions |
|--|
| JURISDICTION NAME |
| Alameda-Unincorporated |
| Amador County Integrated Solid Waste Management Agency |

Page 1 of 1 Count: 2

Counties
You do not have a rights to any Counties.

Select the jurisdiction you wish to work in

Change Affiliation

If you have authority or permissions to view/edit multiple reporting entity/jurisdiction information, you may switch jurisdictions by selecting the “Jurisdiction Affiliations” link at the top of the page. This link will take you back to the Jurisdiction Affiliation screen.

This type of navigation is used throughout the LoGIC application and always located at the top of the page.

[Affiliations](#) > [LoGIC External Home](#) > [Overview](#)

Help for the External Annual Report Module of LoGIC

Welcome

The "LoGIC Welcome" page provides a summary of information contained in the LoGIC application about the selected reporting entity/ jurisdiction. For jurisdictions, the welcome page includes the EAR Cycle as well as EAR Summary and EAR Venue Summary Reports. The EAR Summary Report provides you with a method to review previously submitted EARs. Likewise, the EAR Venue Summary Report provides you with the ability to review all your Venue & Event data submitted as part of previous EARs. Each report is generated by selecting the Reporting-Year you wish to review in the appropriate "Select a year" dropdown. Please note this is the only way to review previous years' submitted EARs and Venue & Events data.

There is also a link to the EAR Diversion Programs Notes Report, which displays a listing of previously entered program notes. Additionally, a panel that contains the latest electronic Disposal Reporting System (eDRS) quarterly reports and their statuses, as well as annual totals, is also provided.

NOTE: eDRS quarterly data is posted as soon as it is uploaded by the county or DRS staff. This data is working data and you are free to view what has been reported for your jurisdiction. If you have questions regarding the information you may contact the applicable county(ies) directly. Additionally, your [Local Assistance and Market Development \(LAMD\) representative](#) is available to discuss disposal accuracy concerns, issues, etc. Your LAMD representative can work with you to pull the appropriate team together and address such matters.

LoGIC Home > Affiliations > LoGIC External Home

Welcome to the Local Government Information Center (LoGIC)

Reporting for the Jurisdiction of Yolo-Unincorporated!

Welcome to CalRecycle's new Local Government Information Center (LoGIC). Over the coming months, LoGIC will become the one-stop shop for you to view and analyze solid waste data for your jurisdiction. For additional information and help, please visit [MyLoGIC](#).

Electronic Annual Report (EAR)

Welcome to the Electronic Annual Report (EAR) module of the Local Government Information Center. The new LoGIC EAR provides a new look and feel and some new features. The EAR is the fastest, easiest way to file your CalRecycle Annual Report and is designed with security, ease of use and flexibility in mind.

To start filing or continue filing a report click on the year listed as the latest EAR cycle available. The status of the report is listed next to the year and lets you know if the report is a new report or a previously submitted report by clicking on a year under EAR summary reports.

Please refer to this section for all your Annual Report needs.

Latest EAR cycle available for: **2009 (Due)** ← Status of EAR cycle

EAR Summary Reports: Select a year ▼

EAR Venue Summary Report (starting in 2005): Select a year ▼

EAR Diversion Program Notes Report: [Here](#)

Electronic Disposal Reporting System (eDRS)

The Electronic Disposal Reporting System (eDRS) allows Jurisdictions and Regional Agencies to view the most up to date disposal information provided to CalRecycle. You may view the data entered into the system, this data may change and is a work in progress and may not have been finalized.

Jurisdiction Disposal Information by Destination: Select a year ▼

Shows the most recent reported amounts of waste disposed/transformed/exported and the total ADC/AIC allocated to a Jurisdiction and all the facilities that waste or ADC/AIC within the reporting year (Select Report Year). Data in this report is only available from 2006 on.

To work on your Annual Report, the reporting cycle must be released to the jurisdictions as indicated with the "Due" status. Select/click on the year hyperlink for the year that is due to view the Annual Report Home page and to start or continue your Annual Report.

General Navigation and Page Designs

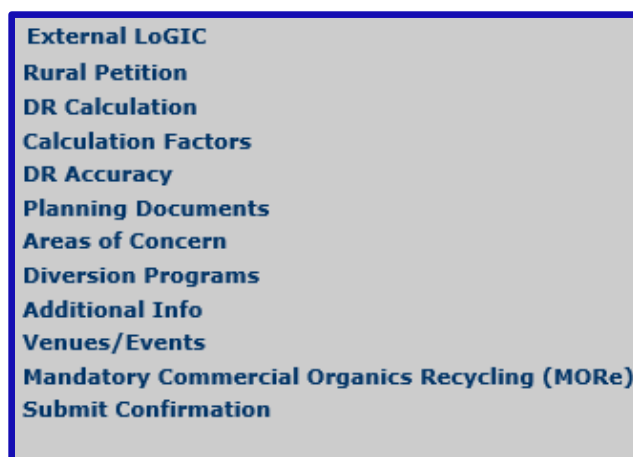

Page Navigation

There are several options for navigating the various sections of the EAR.

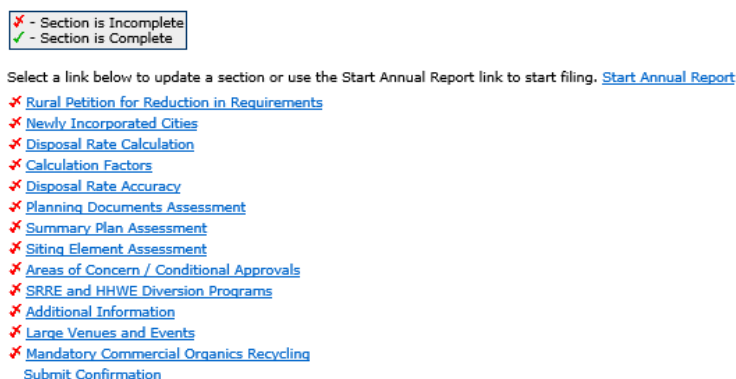

1. The links at the top of each page will help you navigate back to parts of LoGIC.

2. The navigation to the left of the page allows you to quickly jump to another section out of sequence.

3. Located on the Annual Report Home and the Submit Confirmation pages is the list of EAR sections and their current status.

Within each section you can move to the next sequential section using the links at the top of the page. This feature, however, is only enabled if you have completed the current section, as indicated with a green check.

Help for the External Annual Report Module of LoGIC

A red check indicates the section is incomplete and additional information needs to be entered. All sections must be completed and have a green check next to them before the Annual Report can be submitted.

Page Designs

In an effort to make the application easy to use and user friendly, it was designed using standard system architecture similar to applications you would see at any company. Most pages will have a basic combination of "Edit" and "Back". Sections with more complex or subsets of information may have buttons and/or tabs to add data. Sections with multiple records such as Large Venues and Events and SRRE and HHWE Diversion Programs may contain record level links which will allow you to drill down to all the data about a specific program or event.

Buttons

Edit

You must select the "Edit" button to update or change your information. When you enter a section or screen the default mode is "view only" in which data can't be changed or updated. This helps to protect information and allows the user to safely view and browse data already entered.

Back

Returns you to the Annual Report home page or a section home page such as Large Venues and Events or SRRE and HHWE Diversion Programs.

Save

Use the "Save" button to complete a page and save all of your information. If you navigate off a page without first saving, your information may be lost.

Cancel

Use the "Cancel" or "Reset" button to stop the edit mode and revert your page back to the last saved screen. For example, if you have added information and are updating it the screen will

Reset

revert to the last saved information. If you are adding new information the screen will revert back to blank or unanswered questions.

Add New Program

This is a sample of a button that will allow you to add a new record such as a diversion program or large venue and event. These buttons are specific to the selected program or venue and event.

Diversion Programs-EZ

This is a sample of a button that will take you to another screen to update or enter information.

Help for the External Annual Report Module of LoGIC

Links

Throughout the application you will see links. The links may lead you to related regulations, help or other supporting documentation. In other instances a link will allow you to navigate between records or allow you to navigate into more details about a specific program or venue/event.

| PROGRAM CODE | PROGRAM NAME | STATUS |
|-----------------------------|--|--------------------------|
| 1000-SR-XGC | Xeriscaping/Grasscycling | AO - Alternative Ongoing |
| 1010-SR-BCM | Backyard and On-Site Composting/Mulching | SO - Self Ongoing |
| 1020-SR-BWR | Business Waste Reduction Program | SO - Self Ongoing |

Links to more information about a specific program

Tabs

Some sections have multiple pages of information and use page tabs to navigate through them.

Venue/Event Home Basic Info Practices Material Types Programs

Venues/Events has multiple pages of information per record and are accessible through tabs.

Spell Check

You can spell check text in any notes field in the EAR. Click on the check icon next to the notes field and a spell check screen will appear that will check the notes field.

Please note that this feature is not automatic. If you want to engage spell check, please click on the spell check icon in each entry/field.

Household Hazardous Waste Element (HHWE)

2. Does the HHWE need to be revised?

- ☐ Yes. Explain below why the HHWE is not adequate, the revisions that are necessary and the timeline for making those revisions. Note: Diversion program information is updated in each Annual Report. So, before taking any action on the revision process, please contact your LAMD representative for further discussion and additional information.
- ☐ No. Please add any notes or updates below.

Spell Check

Help for the External Annual Report Module of LoGIC

Viewing Notes that fill the entire window

If a notes field is filled with text beyond the size of its window, the magnifying glass icon allows you to read the entire field. Place the cursor over the magnifying glass icon to display all the text in a notes field.

Annotations

Annotations, identified by a '?' within a square, have been added to some of the fields on several pages of the EAR, most notably the Disposal Rate Calculator page and the Diversion Program Detail pages. These annotations provide a description of the field, and in some cases explain what to enter in that field.

A screenshot of the "Diversion Program Detail: Adelanto Jurisdiction (ID: 1060)" page. The page has a blue header with "LoGIC v2.30" and "Authorized Use Only". Below the header is a breadcrumb trail: "LoGIC Home > Diversion Program Search > Diversion Programs > Diversion Program Details". The main content area is divided into two sections. The top section is titled "Program Data" and contains several fields: "Program Name: Commercial On-Site Greenwaste Pick-up", "Program Code: 3020-CM-COG", "Component: Composting", "Start Year: 2003", "Selected in SRRE?", "Existed Before 1990?", and "EAR Reported Start Year: 2003". Below these fields is a table with three columns: "REPORT YEAR", "STATUS", and "HAS REASON?". The table has one row with the values "2009", "Alternative and Ongoing", and "No". The bottom section is titled "Program Notes" and contains an "Add Note" button. A red arrow points to the "Program Data" section.

Look for the '?' within the square icon to the left of the field and 'hover' over it with your cursor to display the annotation.

A screenshot of the "Diversion Program Detail: Adelanto Jurisdiction (ID: 1060)" page, similar to the previous one. However, a red arrow points to a square icon with a question mark inside, located to the left of the "Program Name" field. A tooltip is displayed over this icon, containing the text: "The place to enter and edit the main data describing a program including program name, program status, program details, reasons for dropping a program, when the program started, and if the program was selected in the SRRE or began prior to the SRRE." The rest of the page content is the same as the previous screenshot.

Help for the External Annual Report Module of LoGIC

Annual Report Home Page

The Annual Report Home Page is a high level overview of the current annual report. It serves as a checklist for filling out each section of the EAR. As you complete each section, the 'red' crossed checkmark to the left of the section title will change to a 'green' checkmark, indicating the section is complete. Once all sections have been completed, the 'Submit' button will become active at the bottom of the Submit Confirmation page.

The Newly Incorporated Cities, Summary Plan Assessment, and Siting Element Assessment sections are only available for Regional Agencies or Unincorporated Counties.

Annual Report Home Page: **Contra Costa-Unincorporated (2017)**

Welcome to the Electronic Annual Report (EAR) for reporting years 2007 and beyond. The report has been updated to reflect the new disposal measurement system. Although some aspects of the former measurement system, such as generation studies and adjustment factors, are no longer applicable, we have retained the old format as much as possible. This continuity, coupled with simplified data entry, will allow a smoother transition to the new system. There are some new features of which you should be aware:

- In order to add or change data on any page, you must first select the "Edit" button.
- Once you have completed entering data on a page, you must select the "Save" button to commit your changes or "Cancel" to reset the information before the system will allow you to proceed to the next page or section.
- A red asterisk (*) indicates a required entry.

Please take a few moments to familiarize yourself with the new report before you begin your data entry. If you encounter problems or have questions, be sure to contact your LAMD representative.

Listed below are the individual sections of the EAR. This listing serves as a "checklist" for accomplishing the EAR. As you complete each section, the "red" crossed checkmark (✗) to the left of the section title will change to a "green" checkmark (✓), indicating that section is complete. Once all sections have been completed, the 'Submit' button will become active at the bottom of the Submit Confirmation page.

Latest News

Reminder: AB 341 Mandatory Commercial Recycling in Diversion Program Code 2030 and AB 1826 Mandatory Commercial Organics Recycling in Diversion Program Code 3035 now have required fields for **Education/Outreach** and **Monitoring** that may require completion even after using the EZ button in the SRRE and HHWE Diversion Programs Section (code 3035 is not required for rural jurisdictions).

- If you have any questions about what information you should include, please contact your LAMD representative.

Other New EAR features for this report cycle:

1. Mandatory Commercial Organics Recycling (MORE): Other questions related to the implementation of AB 1826 Mandatory Commercial Organics Recycling and AB 876 Organics Management Infrastructure Planning (applicable to only Counties and Regional Agencies, including those with Rural Jurisdiction Exemptions) are included in a section of the EAR. Some information entered in diversion program code 3035 will carry over to this new section. This section is not required for rural jurisdictions, though rural Counties and Regional Agencies must still report on AB 876 on the 'Infrastructure and Barriers' tab.

2. Green Material ADC: The Disposal Rate Calculator will now preview DRS tons of green material as alternative daily cover (ADC) that will be considered disposal beginning in the year 2020. In September 2014, Governor Brown signed AB 1594 mandating that as of January 1, 2020, the use of green material as ADC will no longer constitute diversion through recycling and will instead be considered disposal in terms of measuring a jurisdiction's annual 50 percent per capita disposal rate. Beginning in the 2017 EAR (due in 2018), if applicable, jurisdictions will include information on plans to address these new requirements and divert green material that is being used as ADC. CalRecycle's EAR will be adjusted to reflect these reporting requirements for 2017.

Rural Petition for Reduction in Requirements

A jurisdiction may petition for a reduced diversion requirement if it can be defined as a "rural city," a "rural county," or a "rural regional agency," and if it meets certain specific criteria.

It is CalRecycle policy to consider and act on petitions for reduction in the 50 percent diversion requirement based upon a collective evaluation of a standard set of criteria. These criteria determine, as nearly as possible, whether a jurisdiction can meet the diversion requirement and whether it has made a *good faith effort* to do so.

Based on this evaluation, CalRecycle will approve, modify, or disapprove a request for reduction. CalRecycle may set an appropriate, alternative medium-term diversion requirement. At two or four year intervals, CalRecycle reviews the conditions upon which the reduction was granted to determine whether to revise the terms of, or revoke the reduction.

Edit Instructions

1. Select "Edit" to answer the question.
2. If you answer "Yes" you must provide more information in the text box in order to complete this section.
3. If you answer "No" more information is optional.
4. Select the "Save" button. Once you have completed the question the check next to "Rural Petition Section" will turn green to indicate that you have completed the section.

Rural Petition for Reduction in Requirements: **Contra Costa-Unincorporated (2017)**

✖ Rural Petition Section → [New City](#)

Rural Petition For Reduction

1. Was your jurisdiction granted a Rural Petition for Reduction by CalRecycle? See [Jurisdictions with an Approved Petition for Rural Reduction](#) For more information regarding Rural Petition For Reduction, go to [Rural Solid Waste Diversion Home Page](#).
☐ Yes. If yes, please discuss whether the conditions under which the petition was granted still apply.
☐ No.

Newly Incorporated Cities

This section is used only by Regional Agencies or Unincorporated Counties to report the incorporation of a new city(ies) within their region. The county should include the details of the incorporation(s) in this section.

Edit Instructions

Each Regional Agency or Unincorporated County must answer the first question to complete this section.

1. Select "Edit".
2. If you answer "No" then you may save the record and move onto the next section.
3. If you answer "Yes" select "Save" and complete the following instructions:

LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > Newly Incorporated City

Newly Incorporated Cities: Alameda-Unincorporated (2007)

✖ New City Section → DR Calculation LAMD Representative: [Betty Fernandez](#)

Since the date of your last Annual Report, are there any newly incorporated cities within your county/regional agency?

☐ Yes.

☐ No.

Adding a City

1. After selecting "Yes" and "Save" the new city information screen will appear.
2. Complete the required fields, as indicated with "*".
3. Select "Save" in the lower portion of the screen. The new city will be listed.

Once the new city information has been added, you may add another city by simply selecting the "Edit" button and following the steps above.

[LoGIC Home](#) > [Affiliations](#) > [LoGIC External Home](#) > [Annual Report Home](#) > Newly Incorporated

Newly Incorporated Cities: Alameda-Unincorporated (

✖ New City Section  [DR Calculation](#) LAMD Repr

Edit information and click Save.
Fields marked with * (asterisk) are required.

Since the date of your last Annual Report, are there any newly incorporated cities within your county/regional agency?

☒ Yes.
☐ No.

You have indicated there are newly incorporated cities within your county or regional agency.

- Please provide information about the city below, then select "Save".
- If there is more than one select "Edit" then "Save" for each new city.
- To delete a city select "Edit" then the "X" next to the city name.
- If you need to correct the information about a new city you must delete it and reenter the information.

In order to complete the disposal rate calculation, you must contact your LAMD representative for assistance. Special procedures are necessary to calculate the disposal rate for counties and regional agencies with newly incorporated cities. However, you may continue filing your electronic annual report, starting with [Disposal Rate Calculation](#).

* City Name:

* Date of Incorporation: 

* Population at Date of Incorporation:

Help for the External Annual Report Module of LoGIC

Delete a city that has been added

1. Select the "Edit" button.

2. Select the "X" next to the name of the city you wish to delete.

| Delete | City Name | Incorporation Date | Population |
|--------|------------|--------------------|------------|
| X | San Juan X | January 12, 2008 | 125,487 |

 **Select to delete the record.**

3. Select "OK" to confirm the deletion or "Cancel" to quit the action.

Disposal Rate Calculation

The Per Capita Disposal and Goal Measurement System implemented with the 2007 EAR moves the emphasis from an estimated diversion measurement number to using an actual disposal measurement number as a factor, along with evaluating program implementation efforts.

These two factors will help determine each jurisdiction's progress toward achieving its Integrated Waste Management Act (AB 939) diversion goals. The 50 percent diversion requirement will now be measured in terms of per capita disposal expressed as pounds per person per day. The focus will be on program implementation, actual recycling, and other diversion programs instead of estimated numbers.

The purpose of the new Per Capita Disposal and Goal Measurement System (Chapter 343, Statutes of 2008 [Wiggins, [SB 1016](#)]) is to make the process of goal measurement as established by AB 939 simpler, more timely, and more accurate. SB 1016 builds on AB 939 compliance requirements by implementing a simplified measure of jurisdictions' performance. SB 1016 accomplishes this by changing to a disposal-based indicator--the per capita disposal rate--which uses only two factors: a jurisdiction's population (or in some cases employment) and its disposal as reported by disposal facilities.

In order for CalRecycle and jurisdictions to more properly focus on successful program implementation, SB 1016 shifts from the historical emphasis on using calculated generation and estimated diversion to using annual disposal as a factor when evaluating jurisdictions' program implementation. Overall benefits of the new approach include:

Help for the External Annual Report Module of LoGIC

- Focuses on diversion program implementation.
- Increases simplicity and timeliness of goal measurement.
- Allows for jurisdiction growth.
- Saves money and time by eliminating complex calculations.
- Increases CalRecycle staff field presence.
- Adjusts CalRecycle review schedule for compliant jurisdictions.

The new per capita disposal rate approach is not determinative of jurisdiction compliance. CalRecycle will use per capita disposal as an indicator in evaluating program implementation and local jurisdiction performance. CalRecycle's evaluation will be focused on how jurisdictions are implementing their programs.

Edit Instructions

1. Select "Edit".
2. Enter your requested total disposal amount. Include any additions or subtractions to your reported disposal that are due to misallocation or miscalculation by adjusting the disposal amount listed in the first field labeled **"Reporting-Year Disposal Amount (tons)."**
3. Enter your Disposal Reduction Credits in the applicable fields provided under **"Disposal Reduction Credits (Reported)."** The EAR calculator will automatically subtract these credits from your requested total in the **"Reporting-Year Disposal Amount (tons)"** field, thus establishing a disposal tonnage that will be used to calculate your **Annual Disposal Rate** for the **Report-Year**.

Disposal Rate Calculation: Amador County Integrated Solid Waste Management Agency (2017)

[✔ DR Calculation Section](#) [➡ Calculation Factors](#)

If the user does not believe the calculated per capita disposal rate below is accurate, one or more changes may be made. A jurisdiction that uses alternative values must explain why the values are more accurate in its annual report submitted to the Department of Resources Recycling and Recovery (CalRecycle).

Instructions

- Select "Edit".
- Enter your Disposal Reduction Credits in the space provided, then select "Save".
- Both your population-based and industry employment-based annual per capita disposal rates will automatically be calculated and displayed in the results section at the bottom of the sheet, along with your 50% equivalent per capita disposal target for population and industry employment. Your population-based and industry employment-based targets, please contact your LPHD representative.
- For a more thorough explanation of the new measurement system, go to [Goal Measurement: 2007 and Later](#).

Please note:

- Changes to any reporting-year amounts must correspond to the **same** reporting-year used in this disposal rate calculation.
- Any changes to the default numbers are in **italic** with yellow background.

Edit information and select Save.

Definition of Terms

Reporting-Year Disposal Amount (tons) - defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Disposal Reporting System (DRS). Disposal contains all jurisdiction waste that was disposed in CA landfills, transformation facilities, and exported out-of-state. Any of LPHD representative if uncertain.

Disposal Reduction Credits - the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a [Reporting-Year Disposal Modification Certification Sheet \(PDF\)](#). Descriptions of these credits can be found on that sheet number 10 to 13.

Reporting-Year Population - January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF).

Reporting-Year Employment - the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD).

Additional Definitions - for additional definitions and/or acronym descriptions, see the [LoGIC Glossary](#).

Help for the External Annual Report Module of LoGIC

4. If the jurisdiction has transformation waste, the report year transformation waste tons will be displayed by quarter and facility in a box below the calculator.
 - a. If you wish to claim the reported transformation waste in your calculation, do not change the report year transformation waste amount.
 - b. If you wish to claim a different transformation amount than the reported amount, enter the amount you wish to claim.
 - c. If you do not wish to claim transformation waste, enter '0' in the report year transformation waste field.
5. To reset the calculation data back to the original CalRecycle default data, select the 'Reset to Default' link. This will clear any changes made to report year disposal, disposal credits, or transformation waste.

| Reporting-Year Calculation Results (Per Capita) | | | | |
|--|------------|--------|------------|--------|
| | Population | | Employment | |
| | Target | Annual | Target | Annual |
| Disposal Rate without Transformation(pounds/person/day): | | ###.0 | | ###.0 |
| Transformation Rate (pounds/person/day): | 1.4 | ###.0 | 8.1 | ###.0 |
| The Calculated Disposal Rate (pounds/person/day): | 6.9 | ###.0 | 40.6 | ###.0 |

Disposal Rate Calculation: Adelanto (2010)

✓ DR Calculation Section Calculation Factors

LAMD Representative: [Diana Suarez-Arquelles](#)

If the user does not believe the calculated per capita disposal rate below is accurate, one or more changes may be made. A jurisdiction that uses alternative values must explain why the values are more accurate in its annual report submitted to the Department of Resources Recycling and Recovery (CalRecycle).

Instructions

- Select "Edit".
- Enter your Disposal Reduction Credits in the spaces provided, then select "Save".
- Both your population-based and industry employment-based annual per capita disposal rates will automatically be calculated and displayed in the results section at the bottom of the sheet, along with your 50% equivalent per capita disposal target for population and industry employment. Your population-based rate will be highlighted below to improve readability. If you have any questions about your population-based and/or industry employment-based targets, please contact your LAMD representative.
- For a more thorough explanation of the new measurement system, go to [Goal Measurement: 2007 and Later](#).

Please note:

- Changes to any reporting-year amounts must correspond to the **same** reporting-year used in this disposal rate calculation.
- Any changes to the default numbers are in italic with yellow background.

[Edit information and click Save.](#)

Definition of Terms

Reporting-Year Disposal Amount (tons) - defaults to the total tonnage disposed in the Reporting-Year by a jurisdiction as reported to the Disposal Reporting System (DRS). Disposal contains all jurisdiction waste that was disposed in CA landfills, transformation facilities, and exported out-of-state. Any changes will require you submit a [Reporting-Year Disposal Modification Certification Sheet \(PDR\)](#). See [User's Guide](#) or contact LAMD representative if uncertain.

Disposal Reduction Credits - the EAR calculator will subtract these credits from your requested total in the Reporting-Year Disposal Amount field. Requesting credits will require you submit a [Reporting-Year Disposal Modification Certification Sheet \(PDR\)](#). Descriptions of these credits can be found on that sheet. See [EAR User's Guide](#) or contact LAMD representative if uncertain.

Reporting-Year Transformation Waste (tons) - defaults to the total tonnage of waste sent in the Reporting-Year by a jurisdiction to a CalRecycle-permitted transformation facility as reported to the Disposal Reporting System (DRS). Transformation is factored into the Per Capita rate only, and is not deductible. To eliminate the Per Capita credit for transformation tonnage, change the [Reporting-Year Transformation Waste \(tons\)](#) number to 0.00.

Reporting-Year Population - January 1st estimate of the number of inhabitants occupying a jurisdiction in the Reporting-Year as prepared by the California Department of Finance (DOF)

Reporting-Year Employment - the estimate of the annual average number of employees by jurisdiction in the Reporting-Year as prepared by the California Employment Development Department (EDD)

Additional Definitions - for additional definitions and/or acronym descriptions, see the [LoGIC Central Glossary](#).

Help for the External Annual Report Module of LoGIC

Reporting-Year Calculation Results

The Reporting-Year Calculation Results (Per Capita) box located at the bottom of the Disposal Rate Calculation page displays your calculated 'Target' and 'Annual' disposal rates for both population and industry employment. The term 'Target' refers to a per capita disposal rate approximately equivalent to the 50 percent diversion requirement. The term 'Annual' refers to the current Reporting-Year per capita disposal rate as calculated by dividing your jurisdiction's corrected Report-Year disposal by your jurisdiction's Report-Year population and industry employment. The 'Target' and 'Annual' rates are compared to each other and used as an indicator of the effectiveness of your programs.

Please note that, in accordance with the language of SB1016, a jurisdiction's per capita disposal rate based on its population is the primary disposal factor to be considered. However, statute also states that if a jurisdiction's solid waste disposal is predominated by commercial or industrial activities, CalRecycle **MAY** alternatively calculate a per capita disposal rate based on their industry employment. Both disposal rates are calculated in the EAR to simplify the analysis process for reporting entities/jurisdiction and CalRecycle staff. A jurisdiction does not get to select which per capita disposal rate (by population or by employment) to submit.

Note: Beginning with the 2016 EAR, The Disposal Rate Calculator has previewed tons of green material as alternative daily cover (ADC) that will be considered disposal beginning in the year 2020. In September 2014, Governor Brown signed Assembly Bill (AB) 1594 ([Williams, Chapter 719, Statutes of 2014](#)), mandating that as of January 1, 2020, the use of green material as ADC will no longer constitute diversion through recycling and will instead be considered disposal in terms of measuring a jurisdiction's annual 50 percent per capita disposal rate ([Public Resources Code \(PRC\) Section 41781.3](#)). Beginning in the **2017 Electronic Annual Report**, jurisdictions will include information on plans to address these new requirements and divert green material that is being used as ADC. More information on AB 1594 can be found on <http://www.calrecycle.ca.gov/lgcentral/basics/ADCGreen/default.htm>.

| Reporting-Year Calculation Results (Per Capita) | | | | |

[Back](#) [Edit](#)

Help for the External Annual Report Module of LoGIC

Calculation Factors

Based on changes that may have been made to the Disposal Rate Calculation in the previous section, the three check boxes below may be automatically checked for you. If the reporting-year disposal amount was changed, the alternative disposal tons box will automatically be checked. If a disposal reduction credit was entered the 'deductions to DRS disposal tonnage' box will automatically be checked. If there was green material used as ADC based on the annual DRS report, that box will be automatically checked and require an answer to the question on this page.

If you feel there is a need for reporting alternative disposal tonnage or deductions to DRS disposal tonnage and you have not made any adjustments to the Disposal Rate Calculation, you may select these checkboxes. This will help LAMD staff identify documents to be submitted outside of the EAR.

Even if you have no changes to make you must still select "Edit" and "Save". This will complete the section and informs LAMD staff that you have read the page and are aware of any required or optional documentation.

Green Material ADC (AB 1594) reporting

NEW for 2017 EAR! Pursuant to [Public Resources Code \(PRC\) Section 41781.3](#) [(AB) 1594 ([Williams, Chapter 719, Statutes of 2014](#))], beginning in the 2017 EAR jurisdictions are required to include information on plans to address how green material that is being used as ADC will be diverted. Please describe in the box (see below) the jurisdiction's plans to divert green material that is being used as ADC.

Calculation Factors: Amador County Integrated Solid Waste Management Agency (2017)

NEW! If 3. Green Material ADC (AB 1594) box is checked: Pursuant to [Public Resources Code \(PRC\) Section 41781.3](#) [(AB) 1594 ([Williams, Chapter 719, Statutes of 2014](#))], beginning in the 2017 EAR jurisdictions are required to include information on plans to address how green material that is being used as ADC will be diverted. Jurisdictions can review disposal facilities that assigned green material ADC and the amount by using the [Inflow/Outflow Map Generator on the CalRecycle website](#).

More information and brief instructions for using the inflow/outflow map is available on [CalRecycle's Green Material Used as Alternative Daily Cover \(ADC\)](#) webpage.

2017 Amador County Integrated Solid Waste Management Agency Green Material ADC (tons): 0

Please describe in the box below the jurisdiction's plans to divert green material that is being used as ADC.

NOTE: Beginning with report year 2020, jurisdictions, as a result of not being able to claim diversion for the use of green material as ADC, that are not meeting the requirements of Section 41780, will be required to answer these additional questions:

- Identify and address barriers to recycling green material and,
- If sufficient capacity at facilities that recycle green material is not expected to be operational before the jurisdiction's next review pursuant to Section 41825, include a plan to address those barriers that are within the control of the local jurisdiction.

Edit information and select Save.

Jurisdictions can review facilities that reported green material ADC for a reporting jurisdiction on <http://www.calrecycle.ca.gov/LGCentral/Reports/maps/inflowoutflow.aspx> by selecting the following;

Location Type: Jurisdiction/Landfill

Flow Direction: Outflow (Please note that selecting this option will still show facilities within the jurisdiction/county)

Year: 2017

Quarter: All Quarters

Location Name: "Your Jurisdiction"

Tonnage Type: ADC GreenWaste (Please note that "GreenWaste" has the same meaning as "green material" for this data report)

Planning Documents Assessment: Butte County Regional Waste Management Authority (2007)

✖ Planning Documents Section ➡ [Diversion Programs](#) LAMD Representative: [Cindi Rumenapp](#)

Source Reduction and Recycling Element (SRRE)

1. Does the SRRE need to be revised?

☐ Yes. Explain below why the SRRE is not adequate, the revisions that are necessary and the timeline for making those revisions. Note: Diversion program information is updated in each Annual Report, SB 1066 time extension or alternative diversion requirement report, compliance order, etc. So, before taking any action on the revision process, please contact your LAMD representative for further discussion and additional information.

☐ No. Please add any notes or updates below.

Household Hazardous Waste Element (HHWE)

2. Does the HHWE need to be revised?

☐ Yes. Explain below why the HHWE is not adequate, the revisions that are necessary and the timeline for making those revisions. Note: Diversion program information is updated in each Annual Report. So, before taking any action on the revision process, please contact your LAMD representative for further discussion and additional information.

☐ No. Please add any notes or updates below.

Non-Disposal Facility Element (NDFE)

3. Describe below any changes in the use of [nondisposal facilities](#), both existing and planned (e.g., is the jurisdiction using a different facility within or outside of the jurisdiction, has a facility closed, is a new one being planned).

4. Are there currently any nondisposal facilities that require a solid waste facility permit located (or planned to be sited) in your jurisdiction that are not identified in your NDFE?

☐ Yes. (Your NDFE may need to be amended before the permit for this facility comes before the Board for concurrence. If the facility is not identified in the NDFE, the permit may not be in conformance with your NDFE, and the permit may be denied. See the Board's NDFE Guidelines at <http://www.ciwm.ca.gov/LqLibrary/Policy/NDFEGuide.htm> and contact your LAMD representative if you have any questions about the need to amend your NDFE)

☐ No. Please add notes or updates below.

LAMD Representative: [Cindi Rumenapp](#)

[Back](#) [Edit](#)

Only regional agencies comprised of member agencies within the boundaries of a single county, including the unincorporated area and regional agencies comprised of two or more counties and all the cities within those counties are required to complete this section. If a regional agency does not consist of all of the jurisdictions in a county, then they can enter '0' for the disposal capacity question and select 'No' for the other question and then include NA in the notes field. If a regional agency has question please contact your LAMD representative.

Total County or Agency Wide Disposal Capacity

1. Based on the best available estimates of current and future disposal, how many years of disposal capacity does your county or regional agency have?

2. If you do not currently have 15 years of disposal capacity, describe your strategy for obtaining 15 years of capacity.

Siting Element Adequacy

3. Does the Siting Element need to be revised? The Siting Element will need to be revised if you have less than 15 years disposal capacity and have not described a strategy for obtaining 15 years disposal capacity.
- ☐ Yes. In the box below, provide a time schedule for revising your Siting Element. Also discuss new disposal sites or disposal strategies that changed during the report year, and how those strategies will allow the county or regional agency to attain 15 years of disposal capacity. Please also contact your LAMD representative for additional information and guidance.
- ☐ No. This county or regional agency has more than 15 years of disposal capacity, has experienced no major changes in disposal practices in the past year, and expects no such changes in the near future. Please include any notes or updates below.

[Back](#) [Edit](#)

Areas of Concern / Conditional Approvals

In this section, each jurisdiction with a planning document (e.g., SRRE, HHWE, NDFE, CSE and SP):

- For which CalRecycle identified an area-of-concern at the time it was approved or conditionally approved, may address the concern in its Annual Report. Once the concern has been adequately addressed by the jurisdiction, it no longer needs to be addressed in subsequent Annual Reports.
- That was conditionally approved by CalRecycle, shall discuss how it has met the conditions in its Annual Report. The conditions are listed in the Resolution in which CalRecycle conditionally approved the planning document. The Resolution is attached to the Notification letter sent to a jurisdiction pursuant to PRC section 41810. Once the conditions have been adequately addressed, they no longer need to be addressed in subsequent Annual Reports.

Since the planning documents were approved so long ago, this generally will only apply to newly incorporated cities (e.g., those that would be going through the planning document review and approval process).

Edit Instructions

1. Select "Edit".
2. If you answer "Yes" to either question you are required to provide more information in the space provided.
3. If you answer "No", more information is optional.
4. Select "Save" to complete the section. Once saved, the check next to "Areas of Concern Section" will turn green.

The screenshot shows a web form titled "Areas of Concern / Conditional Approvals: Alameda-Unincorporated (2009)". At the top, there is a breadcrumb trail: "LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > Areas of Concern / Conditional Approvals". Below the title, there is a status bar with a red checkmark and the text "Areas of Concern Section" followed by a green arrow pointing to "Additional Info". To the right, it says "LAMD Representative: Betty Fernandez". Below this, there are two buttons: "Back" and "Edit". The form is divided into two main sections: "Areas of concern" and "Conditional approvals". Each section contains a question with radio button options and a text input field. The "Areas of concern" section asks: "1. Did CalRecycle require your jurisdiction to address any areas of concern when determining the adequacy of your solid waste planning documents, or any of their elements?" with options "Yes. Below, discuss the actions taken to address the areas of concern." and "No.". The "Conditional approvals" section asks: "2. Did CalRecycle give conditional approval to any of your solid waste planning documents, or any of their elements?" with options "Yes. Below, discuss the actions taken to gain full approval of the plan/elements." and "No.". At the bottom, there are two buttons: "Back" and "Edit".

SRRE and HHWE Diversion Programs

Jurisdictions use the SRRE and HHWE Diversion Programs Section to tell CalRecycle about progress achieved by--or challenges with--their diversion programs. The SRRE and HHWE Diversion Programs Section has two modes, regular and EZ.

Whichever mode you choose, remember that strong programs are the key to a successful CalRecycle review. Whether your diversion programs were expanded to reach more customers, refined for greater efficiency, or dropped in favor of something more effective, CalRecycle wants to know. Be sure to carefully review your program listing and notes. **Be sure to update all notes which are outdated.**

- Diversion Programs (Regular): Update each program, moving through the individual program detail screens using the built-in navigational tools. The Diversion Program Detail screen allows you to add notes and tonnage information, add reason codes for dropped and previously dropped programs, and add or alter target sector information.
- Diversion Programs-EZ: Automatically copies all of the previous reporting-year's status codes, target sectors and program ownership data into the current reporting-year's report. Instead of moving through programs individually, you visit one page to enter tons for all diversion programs in your jurisdiction (optional). Once you save that information, Diversion Programs-EZ directs you back to the SRRE and HHWE Diversion Programs page. Upon returning to this page, you can select any program from this screen to update (e.g., notes, status code) at any time.

Review the "Information Incomplete" column to individually update any diversion programs still marked incomplete, and select individual programs which need additions to notes or adjustments to target sector information.

When using Diversion Programs-EZ, **CalRecycle asks all jurisdictions to update program notes to reflect any significant program developments**. Providing updates on major program changes is important because program status and updated notes are key factors in the CalRecycle Review.

Mandatory Commercial Recycling and Mandatory Commercial Organics Recycling

Mandatory Commercial Recycling in Diversion Program Code 2030 is now a required field in the SRRE and HHWE Diversion Programs section of the EAR.

Mandatory Commercial Organics Recycling in Diversion Program Code 3035 reporting is required for all jurisdictions that have not received [a rural exemption](#) for the Jurisdiction and businesses that operate in the region. Exemptions are permitted for jurisdictions located entirely within a rural county or counties. See rural link above or contact your [LAMD representative](#) if you have questions.

Help for the External Annual Report Module of LoGIC

Diversion Programs Home Page

This page contains basic instructions along with a grid that provides a quick view of each program that must be updated in the Annual Report.

- The grid can be sorted ascending or descending by selecting one of the column headings.
- Each program has a red "*" in the Information Incomplete column to indicate that the program has not yet been reviewed or is still considered incomplete. Each program has to be cleared of the red "*" before the SRRE and HHWE Diversion Program section is considered complete. To clear the red check select a program, update your program data if necessary and select Save.
- A newly added program will have a 'Yes' in the new program column.
- You cannot delete an existing program. If the program has been discontinued you may change the status code to "Dropped in an earlier year".
- You may delete a newly added program.

Help for the External Annual Report Module of LoGIC

Diversion Programs-EZ

This feature is designed to allow jurisdictions to quickly update diversion program tonnage information. You can use Diversion Programs-EZ to update those programs that only need an update for diversion program tons and do not need any changes to program status or notes.

Diversion Programs-EZ

1. Select the "Diversion Programs-EZ" button.
2. A list of all the jurisdiction's programs appears **with the previous tonnage information**.
3. Select "Edit".
4. Enter the Diversion Tons for each of the programs listed. If the amount is unknown enter 0.
 - The "Reset" button will revert the numbers to the information last saved.
5. Select "Save" to update all diversion programs. The programs will no longer have a red "*" in the Information Incomplete column on the SRRE and HHWE Diversion Programs page.
6. Select the "Back" button to return to the SRRE and HHWE Diversion Programs page.
 - Select any programs for which you would like to update the information (e.g., status codes, notes, tonnage). For each program, you will need to select the "Edit" button first and "Save" when completed.
7. After all the programs have been updated the check next to the "Diversion Programs Section" at the top of the SRRE and HHWE Diversion Programs screen will turn green.

[Note Help](#)

Due to changes in the LoGIC reporting system, notes prior to 2006 are grouped together and CalRecycle staff notes appear beginning with the 2009 report.

| FROM JURISDICTION | REPORT YEAR | NOTES |
|-------------------|-------------|--|
| Yes | 2009 | Xeriscaping and grasscycling is promoted by both the City's Water Department and Recycling Department. The City practices grasscycling at City Parks and facilities. A total of 24.85 acres is maintained via grasscycling. This equates to approximately 188.86 tons. |
| Yes | 2008 | Xeriscaping and grasscycling is still being promoted by the City's Water department and the Recycling Dept.to School District and schools in the city limits and all residents. Information on this program is at City Hall and handed out at community events and mailed on request. |
| Yes | 2007 | Grasscycling at all City Facilities; Xeriscaping and grasscycling is being promoted by the City's Water department and the Recycling Division to School District and schools in the city limits. Information at City Hall and handed out at community events and mailed on request. |
| Yes | 1995-2006 | SRRE Selected pg 5-5: Xeriscaping, 1995 and 1996 ARs: Xeriscaping and grasscycling implemented 1992/1993. Per meeting with David Crandell: no formal program in place, although Planning Dept. gives out xeriscaping handouts when public applies for related permit and has water meters. 6/8/01: Site visit w/David Crandell - City continues to use mulching mowers on it's property. Goats are still used for weed abatement and fed some tree trimmings. 2000 EAR: The grasscycling program continues to be implemented in the year 2000 with some 54.77 tons being recycled. The tonnage is based on an average weight of 350 pounds per 1,000 square feet of grassed area per year. 2001 AR: The City has not expanded grasscycle area. The mowable area is 7.21 acres. 2002 AR: There has been no change to the mowable acres. The city still mulch mow all areas. 2003 AR: SRRE Selected on 5-5: Xeriscaping. Implementation of Xeriscaping and grasscycling is ongoing. July 2003 Water Conservation/landscape |

All notes entered about the program through previous EARs and staff.

- If there are no changes, select "Save" to indicate that you have reviewed the information and accept it as reported. Otherwise, update the information as needed and then select "Save".

Material Types Collected

- ☐ Film Plastic
- ☐ Glass
- ☐ Metal
- ☐ Miscellaneous paper (includes phone books, catalogs, magazines and other paper)
- ☐ Newspaper
- ☐ Office paper (white & colored ledger, computer paper, other office paper)
- ☐ Plastic 1-2
- ☐ Plastic 3-7
- ☐ Uncoated corrugated cardboard and paper bags

Note: Briefly describe the program. For Facility Recovery programs (i.e., those with program codes in the 7000 series), please include applicable facility names and locations.

Note Help ☒

Due to changes in the LoGIC reporting system, notes prior to 2006 are grouped together and CalRecycle staff notes appear beginning with the 2009 report.

4. Once updated, select 'Save'. You can navigate using the Next and Previous links go to the previous and next sequential programs or return to the SRRE and HHWE Diversion Program page.
5. After all **the** programs have been updated the check next to the "Diversion Programs Section" at the top of the SRRE and HHWE Diversion Programs screen will turn green.

Standardized Notes

Standardized notes provide a description of the type of information to consider including in the notes portion of each Program Notes section. This feature also includes an example and suggested keywords. This has been designed to further streamline the reporting process and to help to share various diversion program implementation strategies.

To view the *standardized notes* for a diversion program

1. Select a program from the diversion programs list.

Help for the External Annual Report Module of LoGIC

2. Select the 'Note Help' button.

The screenshot shows a web form for reporting recycling programs. At the top, there are checkboxes for 'Plastic 3-7' and 'Uncoated corrugated cardboard and paper bags'. Below these is a text area for notes, with a 'Note Help' button to its right. A red arrow points to the 'Note Help' button with the text 'Select to view Notes Help'. Below the text area is a table with two columns: 'REPORT YEAR' and 'NOTES'. The table contains data for the years 2007, 1995-2006, and 2006. At the bottom of the form, there is a 'Page 1 of 1' indicator, an 'Export To Excel' button, and a 'Count: 2' indicator.

3. A popup will appear with the standardized note information for the selected program.

The screenshot shows the same web form as before, but with a 'Note Help' popup window open. The popup window has a title bar that says 'Note Help - Windows Internet Explorer provided by CalRecycle'. It contains a 'Description' field with the text 'What is the collection frequency, container types/sizes, participation and/or material recovery facility (MRF) recovery rate?'. Below this is a 'Keywords' field with the text 'mandatory, subscription, dual-stream, variable can rate/quantity based user fee, manual or automated collection'. At the bottom of the popup is an 'Example' field with the text 'Mandatory (100% participation), weekly collection, 96-gallon toter, automated'. A red arrow points from the 'Note help' button in the background to the popup window. The background form shows the 'Material Types Collected' section with a list of items: Plastic, Glass, Metal, Miscellaneous paper (includes phone books, catalogs, magazines and other paper), Newspaper, Office paper (white & colored ledger, computer paper, other office paper), Plastic 1-2, Plastic 3-7, and Uncoated corrugated cardboard and paper bags. Each item has a checkbox next to it.

You can cut and paste keywords from this window, minimize for reference and close when finished. The use of keywords is beneficial when searching for specific items in the various program notes.

Viewing Past Notes

Program notes can be viewed for all programs or a specific program, all years or a specific year and/or by program component (prior to the current EAR reporting-year). Notes prior to 2007 cannot be searched by year. Notes prior to 2007 (1995-2006) appear in one large field for each diversion program.

Help for the External Annual Report Module of LoGIC

To view past EAR diversion program notes:

1. Select the 'View All Diversion Program Notes' link from the 'SRRE and HHWE Diversion Programs' page.

LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > SRRE and HHWE Programs

SRRE and HHWE Diversion Programs: Arcadia (2009)

✓ Diversion Programs Section → Areas of Concern

LAMD Representative:

Jurisdictions use the Diversion Programs Section to tell CalRecycle about progress achieved by—or challenges with—their diversion programs. The Diversion Programs Section has two modes, regular or EZ. Whichever mode you choose, remember that strong programs are the key to a successful Department of Resources Recycling and Recovery (CalRecycle) review. Whether your diversion programs were pumped up to reach more customers, refined for greater efficiency, or dropped in favor of something more effective, CalRecycle wants to know. Be sure to carefully review your program listing and notes. Be sure to update all notes which are outdated.

- **Diversion Programs (Regular):** Update each program, moving through the individual program detail screens using the built-in navigational tools. Program detail screen allows you to add notes and tonnage information, add reason codes for dropped and previously dropped programs, and add or alter target sector information. This part of the EAR is unchanged since the onset of electronic filing. Do you need [HELP or Instructions?](#)
- **Diversion Programs-EZ:** Automatically copies all of last year's status codes, target sectors and program ownership data into this year's report. Instead of moving through programs individually, you visit one page to enter tons for all diversion programs in your jurisdiction. Once you save that information, Diversion Programs-EZ directs you back to this page. At that point, you review the "Information Incomplete" column to individually update any diversion programs still marked incomplete, and select individual programs which need additions to notes or adjustments to target sector information.

When using Diversion Programs-EZ CalRecycle asks all jurisdictions to update program notes to reflect any significant program developments. Providing updates on major program changes is important because program status and updated notes are key factors in CalRecycle's Review.

- **Adding new diversion programs:** Simply use the "Add New Program" button. Compatible with Diversion Programs or Diversion Programs-EZ.

Diversion Programs-EZ Add New Program

You may view all of the Diversion Program Notes here: [\[View All Diversion Program Notes\]](#)

You may sort your program data below in either ascending or descending alphanumeric order by selecting the individual column heading.

You may find definitions of [Acronyms](#) and [Program Codes](#)

| PROGRAM CODE | PROGRAM NAME | HAS DETAILS | STATUS | NEW PROGRAM | INFORMATION INCOMPLETE |
|--------------|--|-------------|---------------------------|-------------|------------------------|
| 1000-SR-XGC | Xeriscaping/Grasscycling | Yes | SO - Selected and Ongoing | | * |
| 1010-SR-BCH | Backyard and On-Site Composting/Mulching | | SO - Selected and Ongoing | | * |
| 1020-SR-BWS | Business Waste Reduction Program | | SO - Selected and Ongoing | | * |
| 1030-SR-PMT | Procurement | | SO - Selected and Ongoing | | * |

2. The Past Diversion Program Notes page will appear.

Past Diversion Program Notes: Arcadia (2009)

[Back](#)

Only past Diversion Program notes are available. Notes entered into the current year Annual Report cannot be searched. Notes prior to 2007 cannot be searched by year.

Keywords:

Report Year: All Years ▼

Program Component: All Components ▼

Program Name: All Programs ▼

[Search](#)

| JURISDICTION NOTE | REPORT YEAR | PROGRAM | COMMENT |
|-------------------|-------------|--|---|
| Yes | 2008 | Backyard and On-Site Composting/Mulching | The City offers compost bins and vermicomposting for residents in Arcadia. There are approximately 50 residents who participate in the worm composting program. The City works collaboratively with Los Angeles County and surrounding communities to increase composting awareness and especially promoting vermicomposting. We have found that residents are very interested and excited about the new form of composting and we still have residents who continue to use the garden compost bins that the City offers. |
| Yes | 2008 | Business Waste Reduction Program | The City currently has an ordinance that requires waste haulers for commercial businesses to divert 50% of the waste. We are currently researching methods of educating the business community and hope that they will implement their own recycling programs. We are also looking into adopting an ordinance that will make business recycling mandated in the City. |

3. For Report Year, select a specific year or 'All Years'.
4. For Program Component, select a component to filter the programs by or select 'All Components' to view all programs.
5. For Program Name, select an individual program or 'All Programs'.
6. Select 'Search' to run the report.
7. To print the report use your browser's Print option or select 'Export to Excel' to output and print the report in Excel.
8. Select 'Back' to return to the 'SRRE and HHWE Diversion Programs' page.

NOTE: Beginning with the 2009 Report-Year, and for all subsequent years, LAMD Staff notes will also appear in the Past Diversion Program Notes report. These are easily identified by looking at the first column of the report titled "Jurisdiction Note". If the note was entered by LAMD Staff, it will say "No". If the note was entered by the Jurisdiction, it will say "Yes".

Additional Information

The Additional Information screen allows you to provide CalRecycle with any additional information related to your Annual Report, and the chance to verify waste and recycling hauler information in your jurisdiction that CalRecycle has collected.

Section 1

Use this section if you wish to provide CalRecycle with any additional information related to your Annual Report. Examples would include decreased diversion due to quarantine restrictions, landfill reporting inaccuracies, State Agency's that have an impact on disposal, etc.

Additional Information: Contra Costa-Unincorporated (2017)

Additional Information

1. Is there anything else you would like to tell CalRecycle about unique or innovative efforts by your jurisdiction to reduce waste generation and increase diversion, about your jurisdiction's public education efforts, or about specific obstacles to reaching your jurisdiction's diversion goal? If you wish to attach additional information to your annual report, please use the "Document Management" button below to upload additional files or you can send them directly to your LAMD representative. Please include a brief description of those files in the text box below.

☐ Yes. Please use the space below.
☐ No.

[Document Management](#)

Section 2 (Hauler Information)

This section allows you to verify waste and recycling hauler information in your jurisdiction. The system will list waste and recycling haulers CalRecycle is aware of that operate within your jurisdiction and will contain information from CalRecycle's FacIT database about that hauler. *Your assistance to verify this information is optional but helps to get the most accurate information possible about haulers in your jurisdiction.*

Below are waste and recycling haulers CalRecycle has identified that operate in your area. Please verify the information is correct or make edits as needed for each hauler listed. Additional haulers not already listed can be added by using the Add Hauler button:

| | |
|---|---|
| <input type="checkbox"/> Parent Company: | Republic Services |
| <input type="checkbox"/> Hauler Name: | Richmond Sanitary Service Inc - Contra Costa Unincorporated, |
| <input type="checkbox"/> Contract End Date: | 6/30/2025 |
| <input type="checkbox"/> Franchise Hauler: | <input type="checkbox"/> Yes |
| <input type="checkbox"/> Activities: | <input checked="" type="checkbox"/> Curbside Organics Hauler - Commercial <input checked="" type="checkbox"/> Curbside Organics Hauler - Residential <input checked="" type="checkbox"/> Curbside Recycling Hauler - Commercial <input checked="" type="checkbox"/> Curbside Recycling Hauler - Residential <input checked="" type="checkbox"/> Solid Waste Hauler - Commercial <input checked="" type="checkbox"/> Solid Waste Hauler - Residential |
| <input type="checkbox"/> Verification: | <input type="checkbox"/> This hauler information is correct. <input type="checkbox"/> This hauler does not operate in Contra Costa-Unincorporated |

| Add New Hauler | |

Edit Instructions

Section 1:

1. Select "Edit".
2. If you answer "Yes" you are required to provide more information in the space provided.
3. If you answer "No" more information is optional.

Section 2 (Hauler Information):

1. Select "Edit" if not already selected.
2. You may edit any of the data fields for each of the haulers listed.
3. Explanations of each data field can be found by placing the mouse pointer over the hover button on the left. Explanations are also listed below:
 - Parent Company – The owner of the hauler, if different than the hauler name.
 - Hauler Name – The name the hauler operates under.
 - Contract End Date – The date when a contract between the jurisdiction and the hauler is scheduled to end. If there is more than one contract with the hauler and they end on different dates, please enter the earliest expiration date.
 - Franchise Hauler – Check this box if the hauler has been designated as a "Franchise Hauler" in your jurisdiction. A "Franchise Hauler" is one that has an agreement with a jurisdiction to transport waste.
 - Activities – The functions the hauler performs in your jurisdiction. Check all that apply.
 - Verification – Check the box if you can verify the information provided above is correct, or if the hauler listed does not operate in your jurisdiction.
 - Notes – Enter any relevant information or additional details about the hauler you would like to share.
4. You may add haulers not found on the list by entering information in the "Additional Haulers" section found at the bottom of the list. Only the Hauler Name and Activities fields are required, but we encourage you to enter as much information as possible. New haulers may only be entered one at a time.
5. Select "Save" or "Add New Hauler & Save Changes" to complete the section. Once saved the check next to "Additional Information" will turn green.

Help for the External Annual Report Module of LoGIC

Large Venues and Events

Activities at venue and events can generate a significant amount of waste in a short period of time. Results released in 2006 of a study of 25 different venues and events in California indicated that on average 2.44 pounds of waste is generated per visitor, per day. Addressing this issue Governor Schwarzenegger signed AB 2176 (Montanez, Chapter 879, Statutes of 2004) into law targeting mandatory planning for reduction of waste generated at venues and events. The law requires the largest venue facilities and events (as defined) in each city and county to plan for solid waste reduction and upon request, report information regarding their waste reduction efforts to their local jurisdiction.

Cities and counties in California and State-owned or operated facilities also have waste reduction mandates that they must fulfill and maintain. Thus, they are increasingly looking to find ways to assist in reducing waste at the venues and events held at their facilities or located within their boundaries.

Note: List each venue/event that happened in your jurisdiction each year. Past year venue/event information is *not* automatically brought forward to the current reporting cycle but you may elect to have it copied, then edit.

LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > Venue/Event Home
Large Venues and Events Home Page: Alameda-Unincorporated (2009)

✓ Venues/Events Section → Submit Confirmation LAMD Representative: Betty Fernandez

Venue/Event Information Hide &

Each city, county, and regional agency is required to report in their annual report the diversion activities and tonnage occurring at the top 10 percent of large events and venues, based on the amount of solid waste generated. To encourage waste reduction at [large venues and events](#), the Legislature enacted AB 2176 (Montanez, Statutes of 2004), which added Public Resources Code (PRC) Section 42648. A brief summary of key provisions of the statute is provided below. Please refer to the complete text of the statute if you have additional questions.

This law requires local agencies to:

- Provide specified waste reduction information when issuing a permit to operators of large venues and large events, as defined.
- Determine the top ten percent of large venues and large events in their boundaries, by waste generation.

In addition, this law requires operators of large venues and events to develop and implement solid waste reduction, reuse, and recycling programs and report on the progress of developing and implementing those programs to the local agency in which they are located, upon request of the local agency.

Regional agencies are allowed to determine the top ten percent of all venues/events within the agency, instead of within each agency's member jurisdictions.

Check the box below to report no venues or events.

The venues/events are independently reported for each year. Past venues or events are not automatically assigned to the current year.

Add/Copy Venues/Events

To add a new venue or event, select the 'Add Venue/Event' button and enter the information as requested. To copy information from a venue/event entered in a previous year's EAR, select the 'Copy Venues/Events from Previous Years' button.

Add Venue/Event Copy Venues/Events from Previous Years

If there are no new reportable venues or events for this year and there are none from prior years that continued this year, check the box below to complete this section. Checking the box will immediately mark this section complete. Use the "Add Venue/Event" button above to add new venues or events or the "Copy Venues/Events from Previous Years" button to copy venues/events from prior years.

☐ No reportable venues/events operated this year

Venues and Events Sections

For each venue or event there are several pieces of information that must be completed. Once you choose to 'Add' or 'Edit' a venue you will be taken to a set of screens that contain information specific to that venue.

You can navigate between the screens using the page tabs located at the top of the form. You can return to "Large Venues and Events Home Page" by selecting the Venue/Event Home tab.

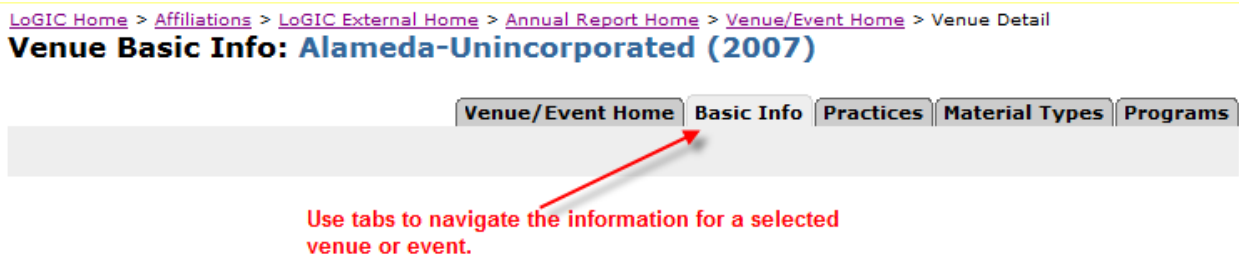

Once each of the sections has been completed the check next to "Venues/Events Section" will turn green indicating that you have completed the requirements.

Tabs Include:

- Basic Information
- Practices
- Material Types

Help for the External Annual Report Module of LoGIC

- Programs

No Reportable Venues/Events

This check box is used to allow the jurisdiction to indicate that there were no reportable venues/events in their region in the reporting cycle. Please be aware that all venues/events are reported independently each year.

If there are no new reportable venues or events for this year and there are none from prior years that continued this year, check the box below to complete this section.
Checking the box will immediately mark this section complete.
Use the "Add Venue/Event" button above to add new venues or events or the "Copy Venues/Events from Previous Years" button to copy venues/events from prior years.

☐ No reportable venues/events operated this year

If you select this box, the check mark next to "Venues/Events Section" will turn green indicating you have completed this section.

Once selected, the "Add Venue/Event" and "Copy Venues/Events from Previous Years" buttons will be dimmed and not selectable.

You may unselect the check box which will restore the buttons and reset the check mark next to "Venues/Events Section" back to red indicating the section has not been completed.

Add/Copy Venues/Events

To add a new venue or event, select the 'Add Venue/Event' button and enter the information as requested. To copy information from a venue/event entered in a previous year's EAR, select the 'Copy Venues/Events from Previous Years' button.

If there are no new reportable venues or events for this year and there are none from prior years that continued this year, check the box below to complete this section.
Checking the box will immediately mark this section complete.
Use the "Add Venue/Event" button above to add new venues or events or the "Copy Venues/Events from Previous Years" button to copy venues/events from prior years.

☒ No reportable venues/events operated this year

Help for the External Annual Report Module of LoGIC

Copy Venues/Events

Due to the fact that some of the venue or event information may change over time, a record for each year is kept for historical reasons. When selecting a year to copy information, you should select the year that most closely represents the event for the current reporting cycle.

1. Select the "Copy Venues/Events from Previous Years" button on the Large Venues and Events Home Page.

Copy Venues/Events from Previous Years

2. Select a year from the drop down box to get a list of events for that report year.

[LoGIC Home](#) > [Affiliations](#) > [LoGIC External Home](#) > [Annual Report Home](#) > [Venue/Event Home](#) > Copy Venues/Events

Copy Venues/Events from Previous Years: Agoura Hills (2007)

Select a report year to display a list of venues/events from that report year that you can copy to this year. Important: Not all venues/events may have been properly transferred to the 2006 report. Check all prior years for venues and events to copy to the current report.

Select a year ▼

3. Check each venue you would like copied into the current report cycle.
4. Select the "Copy to this year" button.

[LoGIC Home](#) > [Affiliations](#) > [LoGIC External Home](#) > [Annual Report Home](#) > [Venue/Event Home](#) > Copy Venues/Events

Copy Venues/Events from Previous Years: Agoura Hills (2007)

Select a report year to display a list of venues/events from that report year that you can copy to this year. Important: Not all venues/events may have been properly transferred to the 2006 report. Check all prior years for venues and events to copy to the current report.

2005 ▼

Select the box to the left of the name of each venue or event you want to copy to the current year report. Then select the 'Copy to this year' button to copy all the selected venues and/or events to the current year report. This action will copy the venues/events recorded information, except for disposed and diverted tons, and return you to the 'Large Venues and Events' page.

You must then individually select each venue/event copied, and enter the data for the disposed and diverted tons for the current reporting year. You may also make any other required edits at this time, such as new programs or added material types.

To copy additional venue/event information from another year, select the 'Copy Venues/Events' button again and repeat the procedure.

Add and Edit Venue/Event Supporting Information

Practices

The Practices section has several required fields that must be entered for the section to be marked as complete. If a venue/event is copied over from a prior year, the waste implementation and disposal and diversion tons fields must be entered.

1. Select the "Edit" button.
2. Complete the required information as indicated by the red "**".
3. If you answer "Yes" to the Written Waste Diversion/Recycling Plan question, more information is required in the notes section.
4. Select the implementation level for the written plan.
5. Enter the disposed and diverted tons for the venue/event. If the venue/event has no disposed or diverted tons you must enter '0' in these fields in order to complete the section.
6. Select "Save" to complete the page.

LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > Venue/Event Home > Practices
Solid Waste Practices: Arcadia (2009)

Venue/Event Home Basic Info Practices Material Types Programs

Venue/Event Name: Santa Anita Race Track

Select Practices, Material Types, and Programs to complete the data entry. To add or update venues/events, select the Venues/Events Home tab.

Back Edit

Required Fields

* Does the venue/event have a written waste diversion/recycling plan? @ Yes ☒ No ☐ **If 'Yes' is selected must enter description in the notes field.**

Describe plan and timeline for implementing the plan. (Maximum 1000 characters)

The Race Track has a very specific plan that they currently practice on a daily basis.

* To what extent has the venue/event implemented its written plan or informal diversion/recycling activities? 76-100% Implemented **Select implementation level.**

Notes: (Maximum 1000 characters)

The Race Track has a very comprehensive plan for recycling and diversion activities for the entire facility. Due to the large volume of organic waste, the Track has a private facility with different specific haulers to recycle each different waste stream.

Estimated amount of solid waste (in tons; 1 ton=2000 lbs.): (Do not include hazardous wastes in these numbers)

* Disposed Tons: 10.00 **Enter disposed and diverted tons. Must enter '0' if venue/event has no disposed or diverted tons.**

* Diverted Tons: 10.00

Select Practices, Material Types, and Programs to complete the data entry. To add or update venues/events, select the Venues/Events Home tab.

Mandatory Commercial Organics Recycling (MORe) per AB 1826 and Organics Management Infrastructure Planning per AB 876

Mandatory Commercial Organics Recycling (MORe)

AB 1826 requires businesses that generate a specified amount of organic waste per week to arrange for recycling services for that waste, and for jurisdictions to implement a recycling program to divert organic waste from businesses subject to the law, as well as report to CalRecycle on their progress in implementing an organic waste recycling program.

Organic waste means food waste, green waste, landscape and pruning waste, nonhazardous wood waste, and food-soiled paper waste that is mixed in with food waste.

“Business” means a commercial or public entity, including but not limited to a firm, partnership, proprietorship, joint stock company, corporation, or association that is organized as a for-profit or nonprofit entity, strip mall, industrial facility, school, school district, California State University, community colleges, University of California, special district or a federal, state, local, regional agency or facility, or a multifamily residential dwelling. This table below shows the implementation schedule:

| On and After: | Business that generates per week: | Of Material: |
|---|-----------------------------------|---------------|
| 4/1/2016 | 8 cubic yards or more | Organic waste |
| 1/1/2017 | 4 cubic yards or more | Organic waste |
| 1/1/2019 | 4 cubic yards or more | Solid waste |
| If organic waste has not been reduced to 50% of 2014 disposal levels: | | |
| 1/1/2020 | 2 cubic yards or more | Solid Waste |

Additional information and guidance can be found here— [AB 1826 Mandatory Commercial Organics Recycling](#)

Organics Management Infrastructure Planning

In October 2015 the Governor signed [AB 876](#) to address longer-term planning for organics infrastructure by requiring counties and regional agencies (RA) to report the following information in the EAR commencing on August 1, 2017:

1. An estimate of the amount of organic waste in cubic yards that will be disposed by the county or region over a 15-year period.
 - i. CalRecycle received clarification from the author that it is the amount of organic waste to be *disposed*, not ‘generated’ that should be estimated. Additionally, it is not necessary to conduct a waste characterization study since the focus is on estimating how much material will be disposed in the future.
 - ii. “Over a 15-year period,” means how many tons of organic waste will be disposed of in one single year 15 years from now, not the cumulative total of 15 years.
 - iii. Please see CalRecycle’s [AB 876 \(Organics Management Infrastructure Planning\) Calculator](#) for estimating the amount of future organics disposal and potential capacity needed for this material.
- 1a. An estimate of the additional organic waste recycling facility capacity in cubic yards (or tons) that will be needed to process the amount of organic waste identified in (1) above.
2. Areas identified by the county or RA as locations for new or expanded organic waste recycling facilities capable of safely meeting the additional organic waste recycling facility capacity need identified in (1a) above.

Additional information can be found here— [AB 876 \(Organics Management Infrastructure Planning\) Guidance](#)

Help for the External Annual Report Module of LoGIC

Data Entry

The Organics reporting fields contain several pieces of information on six different tabs. Different types of reporting entities have different questions that must be completed:

- Rural jurisdictions [with an exemption](#) will have the option, with no required fields, of answering each question in this section.
- Rural counties and regional agencies are required to answer questions pertaining to AB 876 on the “Infrastructure and Barriers” tab, remaining questions are optional.
- Non-Rural jurisdictions are required to complete many of the questions in this section, AB 876 questions on the “Infrastructure and Barriers” tab, should be locked and unanswerable.
- Non-Rural counties and regional agencies are required to complete many of the questions in this section, as well as the AB 876 questions on the “Infrastructure and Barriers” tab.

The Organics tabs Include:

1. Identification of covered businesses/multifamily complexes

- Beginning with the 2017 Report Year, the answer to #1 on this tab will carry over from the previous year’s EAR submittal. Please update the answer field if methodology has changed since the previous year.

Monitoring

☒

Note:

- Regional Agencies should use the text boxes to list the totals in each field for individual members.
- Reporting Jurisdictions that cannot separate businesses and multifamily data should provide an explanation in the applicable text box.
- Reporting Jurisdictions that have an unknown number for any of the numeric fields must input a '0' into the data field and provide an explanation in the corresponding box below.

1. Total number of covered businesses:
Explanation:

2. Total number of covered businesses not recycling organics, if available:
Explanation:

4. Infrastructure and Barriers

- o Per AB 876, Questions #1, #1a, and #2, are to be reported for the entire County or Regional Agency (RA), including all cities within their boundaries. (Counties and Regional Agencies with Rural Jurisdiction Exemptions, are still required to report AB 876 information). All other jurisdictions that do not have this exemption are required to answer question #3-13.

Identification of covered businesses/multifamily complexes | Education and Outreach | **Monitoring** | **Infrastructure and Barriers** | Enforcement, Self-Haul Requirements, and Exemptions | Additional Information

Back Edit

Infrastructure and Barriers

☒

These questions are pursuant to [AB 876 \(McCarthy, Chapter 593, Statutes of 2015\)](#), and [AB 1826 Chesbro \(Chapter 727, Statutes of 2014\)](#).

Per AB 876, Questions #1, #1a, and #2, are to be reported for the entire County or Regional Agency (RA), including all cities within their boundaries. If a regional agency does not consist of all of the jurisdictions in a county, CalRecycle recommends that the county coordinate with the RA(s) and discuss how they want to compile their data. For example, it would be best if the data were for the county as a whole and not broken out by RA. In the EAR, regional agencies and the county should report the same data and explain that the data is for the county as a whole.

Per AB 1826, #3-13 are to be answered by all non-rural/exempted reporting jurisdictions for progress achieved in implementing their commercial organics waste recycling program.

Beginning with the 2017 report year, the [AB 876 \(Organics Management Infrastructure Planning\) Calculator](#) now has additional lines to show users how much of the county's/regional agency's organic waste stream is comprised of food waste. Of all the fractions of the organics waste stream, food is the most difficult to process. Chip and Grind facilities are limited to processing green material which expressly excludes food waste ([14 CCR Sections \(a\)\(10\) and \(a\)\(21.1\)](#)). Therefore, if a jurisdiction's organics capacity planning primarily relies on Chip & Grind, there is a shortfall of food waste capacity. Only a limited number of all composting facilities are permitted to take food waste; contact your hauler or facility operator to find out whether they are permitted to take food waste, or if they have plans to expand their permit to accept food waste in the future. In-vessel digesters are still fairly uncommon, but many of these do accept food waste. Additionally, do not overlook food waste reduction and edible food rescue programs in your planning.

1. Please provide an estimate of the amount of organic waste, in cubic yards or tons, that will be disposed by the entire county (unincorporated and incorporated areas) or regional agency over a 15-year period ("Over a 15-year period," means how many tons of organic waste will be disposed of in one single year 15 years from now, not the cumulative total of 15 years). Please indicate which unit of measurement you are reporting in for this question and the rest of this report tab.
☐ Tons Per Year (TPY) ☐ Cubic Yards Per Year (CYPY)
a. Please provide an estimate of the additional organic waste recycling facility capacity, in cubic yards, that will be needed to process the amount of organic waste identified in #1 above.

2. Please identify areas for new or expanded organic waste recycling facilities capable of safely meeting the additional organic waste recycling facility capacity need identified in #1a above. If the answer to #1a is less than #1, please be sure to explain why, e.g. note that there is currently unused capacity that can be utilized, and/or note that since there is tangible planning for new or expanded facilities now, that in 15 years, the needed capacity will be available. These details can be further clarified in #4 - #7 below.

Help for the External Annual Report Module of LoGIC

5. Enforcement, Self-Haul Requirements, and Exemptions

LoGIC Home > Affiliations > LoGIC External Home > Annual Report Home > Mandatory Commercial Organics Recycling (MORe) Home > Additional Information

Identification of covered businesses/multifamily complexes | Education and Outreach | Monitoring | Infrastructure and Barriers | Enforcement, Self-Haul Requirements, and Exemptions | Additional Information

[Back](#) [Edit](#)

Enforcement, Self-Haul Requirements, and Exemptions

The following elements do not need to be implemented as part of the jurisdiction's organic waste recycling program; however, if the jurisdiction implements any of these, then the jurisdiction is required to report on any related to these provisions.

1. Has the jurisdiction implemented any enforcement measures for covered businesses (including multifamily) that are not in compliance? If so, please describe.
2. Has the jurisdiction implemented any certification requirements for self-haulers? If so, please describe.
3. Have any exemptions been granted? Exemptions noted in the law include:
 - a. Lack of sufficient space to provide additional bins.
 - b. Current business practices already result in a significant reduction in its organic waste (can be revoked 2020).
 - c. The business does not generate at least one-half cubic yard of organic waste per week.
 - d. Limited term exemptions.
 - e. Unforeseen events.If exemptions were granted by the jurisdiction:
 - i. Please provide the number of exemptions granted.
 - ii. Describe the reasons why the exemptions were granted.
 - iii. Explain how these businesses are included in the MORe Monitoring fields, e.g. these businesses are included in the total number of covered entities and are included in the total number of those not recycling material.

6. Additional Information

- This tab includes a document management button where supplemental documents can be uploaded as part of the EAR submittal.

Additional Information

Is there anything else you would like to tell CallRecycle about unique or innovative efforts by your jurisdiction to reduce organic waste generation and increase diversion, about your jurisdiction's public education efforts, or about specific obstacles to reaching your jurisdiction's implementation of an organic recycling program?

If you wish to attach additional information to your annual report, including calculation data for infrastructure planning, please use the "Document Management" button below to upload additional files or you can send them directly to your LAMD representative. Please include a brief description of those files in the text box below.

[Document Management](#)

[Back](#) [Edit](#)

After completing this section you may proceed on to review and submit your Jurisdiction's entire EAR.

Help for the External Annual Report Module of LoGIC

Confirmation of Intent to Submit

Once all the sections have been completed the "Submit Annual Report" button will be visible. **You may review (save and share, if appropriate) your report prior to submitting it by selecting the "Report Summary" button.** Once you select the submit button you will receive an email confirming the submitted report and you will no longer be able to make changes. If you need to update an Annual Report that already has been submitted, please contact your LAMD representative. They will work with you to update your Annual Report as a part of CalRecycle staff review or un-submit your Annual Report, if applicable.

When you log back into LoGIC the status for the EAR will have changed to "Submitted".

[LoGIC Home](#) > [Affiliations](#) > [LoGIC External Home](#) > [Annual Report Home](#) > Submit Annual Report

Confirmation of Intent to Submit: Amador County Integrated Solid Waste Management Agency (2012)

LAMD Representative: [John Duke](#)

Are you sure you want to submit this Annual Report?

[Report Summary](#)

You have indicated you are ready to submit your jurisdiction's official annual report to the Department of Resources Recycling and Recovery (CalRecycle). After you do that, you will still be able to visit this site and review the information submitted, however, you will no longer be able to change that information. Please print a copy of your final version for your records.

If you submit your electronic annual report, and later you realize the information is not correct or complete, contact your Local Assistance and Market Development (LAMD) representative as soon as possible. If you have experienced technical difficulties or have questions about this report, please contact your LAMD representative before submitting.

When you click the button labeled "Validate Annual Report," the Electronic Annual Report system checks your report against CalRecycle's completeness criteria. If information was omitted, the system presents the validation screen, which helps you locate the missing information. If the report is complete, then you will be given the opportunity to submit.

When you select the button labeled "Submit Annual Report," the validation still occurs; however, if the report is complete, then it will be automatically submitted to the CalRecycle.

Once you submit your electronic annual report, your LAMD representative will review it and contact you if there are any questions. If the electronic annual report summary page indicates that you must submit additional forms on paper, such as those required for alternate adjustment factors or alternate disposal tonnage it is your responsibility to complete those forms and to send them to the CalRecycle within the provided timeframe.

Your electronic annual report will be one of the primary documents (but not the only document) used by CalRecycle during the [CalRecycle review](#) to determine your jurisdiction's compliance with the Integrated Waste Management Act. Treat it with the same care you would treat any official document you file with CalRecycle.
